Project Scribe

Sprint 6 Summary

Sprint 6 Completion: 91%
Total Project Completion: 85%/100%

Progress Update

For the formal final sprint of this project, we continued the *development* phase of our project, adding major app features and formally started the *deployment* and *testing* on our preview environment. This includes the following tasks:

- Add search feature
- Add tasks feature
- Finalize home page
- Enhance UI responsiveness
- Other app refinements
- Deployment to preview environment
- Performed regression testing and functional testing in deployed environment

Sprint Retrospective

- What went well: For this sprint, we've successfully added two major features in our web app, deployed in our preview environment, and conducted testing, finishing almost all of our scheduled tasks in time.

- What could be improved: We will continue to enhance our app testing to ensure it performs well on the upcoming mock defense.

- What needs to be done: As the upcoming week marks the scheduled defense week, we will continue to refine, enhance, and optimize our web app as well as adding minor remaining features.
